

STALLION CAMP 2012

Morning camps available 9:00-12:00p.m:

Discovery Science- In the Garden

June 4-8th

Kindergarten & 1st Grade

Campers will dissect soils and seeds, investigate weather systems, and create creepy crawlers, rubbings, sun visors and murals. They will explore living plants and leaves and experience the metamorphosis of a caterpillar.

Discovery Science All-Stars

June 11-15th

Kindergarten & 1st Grade

Campers will build super structures, create a volcanic eruption and examine rocks formed from volcanic magma. All-Stars will build gliders and experiment with lift, aerodynamics and air pressure. They will even learn the secrets behind the stars. Camp projects include: magnetic soccer game, rocket racer, star locator, animal tracker, crystal gardens and more!

Lego WeDo Robotics

June 4-8th

2nd-4th Grade

Students will be introduced to the basics of Robotics and Engineering through a series of hands on projects utilizing Lego WeDo Systems. Children will build, program and test their robots from very basic to more complex designs. In this interactive camp, kids will learn while having fun with legos and computers.

Stop Motion Animation

June 11-15th

2nd-4th Grade

In this fun class, students will learn the basics of stop motion animation and different techniques to make inanimate objects move. They will work with clay, felt and other materials to build their sets and characters. Art, Storytelling, Media Literacy, teamwork and math skills will be reinforced. This is a kid favorite at Arts and Technology Institute.

Art Exploration

June 18-22nd

Kindergarten-4th Grade

Ms. Cramer's camp will explore a variety of wonderful materials and tools. Our fun packed camp will expand their knowledge and skills of various methods and styles: paint, sculpture, design and more.

Afternoon camps available 1:00-4:00p.m:

Stallion Cheer Camp

All Weeks

All Ages

Campers will develop strength, flexibility, and endurance in a cheer packed atmosphere. Coach Rhonda Adams will provide instruction on cheers, chants, cheer techniques, dance, and basic stunts. Performance every Friday at 3:30!

Sports Club 1:00-4:00

All Weeks

Kindergarten-4th Grade

Sports club will be a combination of Martial Arts instruction provided by the Plano Center of Martial Arts and Classic Sport game play. Coach Cory Adams will focus on rules and skills of basketball, volleyball, hockey, and soccer.

Lego Mindstorm Robotics

June 4th-8th

5th-8th Grade

MINDSTORMS NXT 2.0 combines the versatility of the LEGO building system with all new technologies: an intelligent microcomputer brick and intuitive drag and drop programming software. Campers will learn how to design, build and program robots. Participants will work in teams to construct 3-5 different machines over 5 days. Team work skills as well as math, science, engineering and cross-motor skills will be highlighted.

Digital Artistry

June 11-15th

5th-8th Grade

Is your child an artist? Let their imagination bloom in this interactive camp. Campers will work on small group projects involving a variety of skills and techniques: digital graphics using photoshop, digital and ink printing, creation of promotional materials, advertising, and digital presentation tools. Art, presentation skills and teamwork will be reinforced in a fun, engaging atmosphere.
